PROBLEM-SOLUTION FIT CANVAS 2.0

EV Market Performance & Insights Platform (Python Flask + Tableau)

Target Persona: Emily Johnson (Strategic Analyst / Automotive Stakeholder)

1. CUSTOMER SEGMENT(S) — CS

Who is your customer? Define CS and key characteristics.

- **Primary:** Strategic Analysts & Market Research Managers at Automotive OEMs.
- **Secondary:** Strategy Directors & EV Investment Managers.
- **Traits:** Need macro/micro EV trends fast; non-technical database users.

2. JOBS-TO-BE-DONE / PROBLEMS — J&P

Which jobs or problems do you address?

- Track real-time BEV vs. PHEV regional market share.
- Assess government policy impact on regional sales.
- Prepare visual chart decks for executive strategy meetings.

3. TRIGGERS — TR

What triggers customers to act?

- Quarterly sales planning & regional board presentations.
- Sudden EV subsidy/policy announcements in key markets.
- Competitor pricing or market share surges.

4. EMOTIONS: BEFORE / AFTER — EM

How do they feel before and after?

- **Before:** Frustrated by static CSVs/PDFs; anxious about outdated numbers; overwhelmed.
- **After:** Confident, empowered, and in control with clean visual interactive insights.

5. AVAILABLE SOLUTIONS — AS

What alternatives currently exist? Pros & Cons.

- **Static CSV/Excel:** Flexible but error-prone, static, and hard to visualize.
- **PDF Reports:** Curated but zero interactivity & slow publication.
- **Ad-hoc SQL Requests:** Tailored but multi-day turnaround bottleneck.

6. CUSTOMER CONSTRAINTS — CC

What prevents action or limits choices?

- **Technical:** Lack of SQL / Python coding skills for self-service querying.
- **Time:** Tight meeting deadlines allow no delay for data team queues.
- **Fragmentation:** Scattered files add high cognitive load.

7. BEHAVIOUR — BE

What do they currently do to solve it?

- Manually compiles data from multiple static reports.
- Screenshots chart clips into PowerPoint slides.
- Sends frequent ad-hoc email queries to data team.

8. CHANNELS OF BEHAVIOUR — CH

Online and offline channels extracted from #7.

- **8.1 Online:** Web browsers, Tableau dashboards, Flask portal, email requests.
- **8.2 Offline:** Executive meetings, printed slide decks, team reviews.

9. PROBLEM ROOT CAUSE — RC

What is the real reason this problem exists?

Automotive market data is rapidly changing and highly fragmented across disparate sources. Existing BI workflows rely either on rigid static documents or overloaded central data teams, creating a disconnect between live market dynamics and non-technical strategic decision-makers.

10. YOUR SOLUTION — SL

EV Market Performance & Insights Platform (Flask + Tableau)

- **Centralized Portal:** Secure Python Flask application providing single-point access.
- **Interactive Tableau Dashboards:** Self-service filters for region, date, BEV vs. PHEV metrics.
- **Guided Tableau Story:** Structured narrative walking stakeholders through market shifts step-by-step.
- **One-Click Visual Export:** Fast visual extraction for presentation-ready slide decks.
